Tanur, Malappuram, Kerala, India

+91 9037340138 — adeebahamedkm@gmail.com

GitHub: github.com/darkworld1008 — LinkedIn — Portfolio Project: Loomi

Professional Summary

Motivated Computer Science and Engineering undergraduate with hands-on experience in web development, application development, and AI-assisted software design. Proficient in building responsive web applications using Python, JavaScript, HTML, and CSS. Experienced in developing personal projects, leveraging AI tools to improve productivity, and customizing Linux environments. Seeking freelance and remote opportunities to deliver high-quality software solutions while expanding technical expertise.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

KMCT Institute of Technology and Management, Kuttippuram, Kerala, India

APJ Abdul Kalam Technological University (KTU)

Expected Graduation: 2028

Current CGPA: 7.0/10

Technical Skills

Programming Languages: Python, C, C++, JavaScript

Web Technologies: HTML5, CSS3, Responsive Web Design

Tools and Platforms: Git, GitHub, Linux, AI Development Tools

Core Competencies: Problem Solving, Communication, Team Collaboration, Customer Service, Application Development

Projects

Loomi Website

loomi-in.onrender.com

- Designed and developed a responsive website with a modern user interface and payment integration capabilities.
- Implemented mobile-friendly layouts and optimized usability across multiple devices.
- Utilized AI-assisted development tools to improve design efficiency and development workflow.

Mobile Application Project

- Developing a mobile application with a focus on usability, performance, and user experience.
- Applying modern software development principles to design and implement application features.

Linux Customization Projects

- Customized Linux environments and system configurations to improve productivity and enhance user experience.
- Explored system administration concepts and open-source technologies.

Internship Experience

Cloud Computing Intern (Ongoing)

- Gaining practical knowledge of cloud computing concepts, deployment methodologies, and cloud-based technologies.
- Developing an understanding of cloud infrastructure and modern computing environments.

Certifications

- Microsoft Certification Programs
- Coursera – Foundation of Coding
- Full Stack Development Certifications
- Additional certifications in programming and technology-related courses

Languages

- English
- Malayalam
- Hindi

Career Objective

To build a successful career as a Freelance Web Developer and Application Developer by leveraging technical expertise, creativity, and AI-assisted development tools to create innovative digital solutions and continuously grow as a software professional.
